Technologies

EnduraColor™ Plus

EnduraColor Plus is the defining difference when it comes to superior wear resistance and color longevity. EnduraColor Plus is not a coating or secondary treatment, but rather a proprietary blended layer of nature's highest performing minerals (which never fade) that have been embedded right into the surface of each stone during the manufacturing process. This ensures that the surface will not fade, crack, peel or delaminate, and the beauty of your project will last a lifetime.

Reala™ Surface Technology

Ultra-realistic textures cast from actual natural stone, brick and cobblestones.

Ultima™ Concrete Technology

For heavy traffic loads, this proprietary manufacturing process creates pavers and walls with up to 4 times the strength of poured concrete.
